I. ANNOTATION

The main goal of this course is to ensure to the economic students basic knowledge: theory of the law, constitutional law, administrative law, civil law, obligation law, property law, labour law and criminal law.

The lecture course follows the classical structure of the law branches of our national legal system. The information is presented according to the logical order differentiating the law branches into public and private law. In this way the lecture course offers to the students fundamental knowledge about basic concepts and legal institutes of our national system.

The goal is to ensure to the future economists knowledge about the fundamental law issues, bearing in mind the place and role they will have in the management of the economic in the conditions of market economy.

The expected results from the course include following parameter: to give basis legal knowledge, form skills for work with legislative regulations, application of this knowledge in legal cases and forming competence in application of the norms, related to the economists profession.
